EDUCATION

Ph.D. in Imaging Science *Aug 2020 - Expected Dec 2024*
Rochester Institute of Technology Rochester, NY, USA
Research Focus: *Medical Image Analysis using Deep Learning with Limited Labeled Data or Noisy Labels*
Relevant Courses: Intro to Medical Imaging; Mathematics for Deep Learning; Image Processing and Computer Vision; Human Visual System; Fourier Methods for Imaging; Probability Noise and System Modeling

Bachelor's in Electronics and Communication Engineering *Nov 2013 - Dec 2017*
Institute of Engineering, Pulchowk Campus, Tribhuvan University Lalitpur, Nepal
Relevant Courses: Data Mining; Artificial Intelligence; Big Data Technologies

TECHNICAL SKILLS

Programming Languages	Python(Proficient), MATLAB (Intermediate), C/C++ (Basics)
Python Packages	Pytorch, Tensorflow, Keras, Matplotlib, Seaborn, Numpy, Scipy, Scikit-Learn, Pandas, OpenCV, Regex, Jupyter
Tools and Frameworks	Git, Bash, Conda, SLURM, AWS, ITK-SNAP, Neptune, Weight & Biases

RESEARCH EXPERIENCE

Graduate Research Assistant *July 2021 - Present*
Biomedical Modeling, Visualization and Image-guided Navigation Lab, RIT Rochester, NY, USA

- Studied how network architecture, pretraining methods, and dataset characteristics affect the medical image classification robustness amidst noisy labels in several settings (1st paper submitted to EMBC 2024; 2nd paper submitting to MedIA journal).
- Improved the robustness of medical image classification against noisy labels by using self-supervised pretraining (published at DEMI Workshop, MICCAI 2023).
- Developed a multimodal active learning method for 2D brain tumor segmentation and chest x-ray classification (accepted at MIUA 2023).
- Investigated the impact of class-dependent label noise in medical image classification on noise-free classes with subtle visual differences (published at SPIE Medical Imaging 2023).

Graduate Research Assistant *May 2021 - June 2022*
Machine and Neuromorphic Perception Lab, RIT Rochester, NY, USA

- Investigated the impact of heterogeneous label noise on deep learning-based vision tasks in multi-class, multi-task, and multi-label scenarios (published at ISVC 2021).
- Conducted an extensive study of online learning classifiers (streaming LDA, PA classifier, NCM, and AROW) for efficient continual learning.

Machine Learning Research Assistant *April 2019 - Aug 2020*
NepAl Applied Mathematics and Informatics Institute for Research Lalitpur, Nepal

- Developed deep learning framework for vertebra detection, spinal curvature estimation, and, scoliosis detection from X-ray images (published at MICCAI 2019 AASCE Challenge).
- Created a colorimetric PAD image dataset for pesticide concentration estimation using smartphone cameras, and benchmarked it with various ML models. (published at ACS Omega 2021).

INDUSTRY WORK EXPERIENCE

Deep Learning Engineer *Dec 2019 - Aug 2020*
Zeg, 3D AI solution Company (Worked remotely, part-time consulting job) London, UK

- Implemented several GAN models for adding realism to computer-rendered images.
- Developed deep learning-based framework for key points detection in 2D images for 3D modeling.

Firmware/Image Processing Engineer

Nepal Digital Systems (startup company)

Feb 2018 - Aug 2018

Lalitpur, Nepal

- Interfaced Raspberry Pi, Picamera, and GSM/GPS module with effective network communication for home automation application.
- Built OpenCV-based computer vision pipeline for edge devices to assess material strain under force.

GROWTH, ACHIEVEMENTS AND HONORS

Tiger Tales Toastmasters, RIT

• Presentation Mastery pathway (level 2)

Aug 2022 - Present

• Sergeant at Arms Role: Responsible for managing logistics at Toastmasters meetings.

May 2023 - Present

RIT PhD. Merit Scholarship/Assistantship

Aug 2020 - Present

AWARE-AI NSF Research Trainee, RIT

Jan 2022 - May 2022

First Treasurer of Nepal Student Association, RIT

April 2020 – April 2021

Merit-Based Scholarship for Children of Government Employees

2018

Provided by: Government of Nepal, Ministry of General Administration (MoGA)

Merit-Based Partial Tuition Waiver, Tribhuvan University

Nov 2013 - Dec 2017

Appearance in National Television as an Idea Presenter

2017

Received the best idea award under Energy and Sustainability Category
